“GSMS Visit to SemiconIndia 2023”

The students from the Graduate School of Management Studies (GSMS) had the opportunity to explore SemiconIndia 2023, a significant event in the semiconductor industry.

SemiconIndia 2023, aligned with Prime Minister Narendra Modi's vision, aims to establish India as a global hub for semiconductor design, manufacturing, and technology development. This event fosters industry collaboration, showcases cutting-edge technology, and supports India's global technological growth. The GSMS students' visit offered them valuable insights into industry leaders and emerging trends.

Day 1: GSMS Visit to SemiconIndia 2023

During this three-day program, one of the days was dedicated to their visit to the SemiconIndia 2023 exhibition, where they gained valuable insights into the workings of the semiconductor industry, including its cutting-edge technologies and manufacturing processes.

Day 2: At SemiconIndia 2023 with Narendra Modi's Address

The second day of the SemiconIndia 2023 Conference drew substantial participation from industry, academia, and government.

The highlight of the day was the presence of Hon'ble Prime Minister Shri Narendra Modi, who delivered a significant address.

The conference featured sessions on Next-Gen Computing, with Shri Balaji Baktha, CEO of Ventana Micro Systems, addressing the critical aspects of digital autonomy and sovereign datacentre infrastructure powered by RISC-V. Shree Raja Koduri, CEO of Mihira AI, shared insights into the future of computing and

underscored the importance of time and financial resources for start-ups. The critical aspects of digital autonomy and sovereign datacenter infrastructure powered by RISC-V. Shri Raja Koduri, CEO of Mihira AI, shared insights into the future of computing and underscored the importance of time and financial resources for start-ups.

Day 3: Highlights at SemiconIndia 2023

The third day of SemiconIndia 2023 witnessed a notable address by the Hon'ble External Affairs Minister, Shri S. Jaishankar. In his speech, he highlighted India's burgeoning global partnerships within the semiconductor industry.

This significant emphasis on international collaborations underscored India's commitment to becoming a key player in the global semiconductor landscape. The day served as a testament to the country's growing influence and ambitions in the field of semiconductor design, manufacturing, and technology development.

The GSMS students' visit to SemiconIndia 2023 provided a profound understanding of India's ambitions in the semiconductor industry. With visionary leadership from Prime Minister Shri Narendra Modi and External Affairs Minister Shri S. Jaishankar, the event showcased India's commitment to global partnerships and technological excellence. This enriching experience underscored the sector's significance in India's journey towards becoming a prominent global semiconductor hub.
