Time: 11am to 1pm

Technical analysis is a trading discipline employed to evaluate investments and identify trading opportunities by analyzing statistical trends gathered from trading activity, such as price movement and volume.

A Guest Session on Live Trading in the stock market was organized to get industry expert to students. The industry expert has nicely explained various techniques for the stock evaluation and informed some tips to evaluate the stocks listed on NSE/BSE. The industry expert has also shown various websites from where students can directly get the technical charts related to price movements of the stocks and also analyze the future trends of the shares. More than 25 students from finance specialization of MBA (IB) semester-3 have participated in the guest session.

The session was coordinated by Dr. Kaushal Bhatt, Associate Professor, GSMS.
